

ANNOUNCEMENT AND CALL FOR POSTERS **2006 POSTER SHOW and EXHIBIT**

Co-sponsored by The Catholic University of America Department of Biology

What is it? This annual event is an occasion to get together with other microscopists to discuss and show off your work. You see everyone's latest and greatest pictures as well as checking out the displays of our corporate sponsors...get up to date on new equipment, techniques and supplies! All the while socializing over a great buffet.

When: **Wednesday, June 21, 2006** from 6:00 pm until 9:00 pm.

Where: The Catholic University of America, McMahon Hall Foyer.

Directions and Parking: McMahon Hall is in the middle of campus (see map at: <http://welcome.cua.edu/maps.cfm>). The Brookland/CUA Metro stop across McCormick Road is only a 5 minute walk to McMahan Hall, so we strongly encourage taking the Metro. If driving, directions are available at <http://www.cua.edu/directions/>. From most places, you will take Michigan Avenue until you see the Basilica dome marking an entrance at 4th St., NE. **There is no free parking on campus.** There are some metered spots next to the Basilica and on McCormick Road on the east side of campus. There is also parking at the Metro stop. **For Mapping:** 620 Michigan Avenue, NE, Washington, DC 20064

Enticements: **PRIZES** for the best posters! **FREE FOOD & DRINKS!**

Entry requirements: Very easy! Bring a full poster from another meeting or just some beautiful micrographs. You could even bring a computer generated show-and-tell. You do not have to be a CSM member to enter, so bring friends, colleagues, fellows and students. Poster boards are small tri-fold cardboard ones again this year (36" height X 48" wide).

FREE Registration!! Email (brantnec@ninds.nih.gov) or FAX (301-480-1435) the attached form to Chris Brantner

Deadline for entries is June 16

**2006 CHESAPEAKE SOCIETY FOR MICROSCOPY
POSTER SHOW ENTRY FORM**

Poster Title:

Authors:

Affiliation:

Entry Categories (*please check one from each row*):

Investigator: predoctoral postdoctoral established investigator

Microscopy: light microscopy electron microscopy

Presentation: full poster small presentation other (micrographs, work-in-progress, etc.)

FAX completed form to Chris Brantner at **301-480-1485** by **June 16**
or **email** to Chris at brantnec@ninds.nih.gov

If mailing: fill out, fold into three, tape edges, put stamp on and send to
